

HI FANS,
DID YOU KNOW?

TODAY IS
WORLD SPAY DAY!!!

Every year in February, actually the fourth Tuesday of this month, this day is celebrated to increase awareness towards the importance of birth control for dogs and cats!

**WORLD SPAY DAY 2023 - LEGA PRO ANIMALE/
FONDAZIONE
MONDO ANIMALE:**

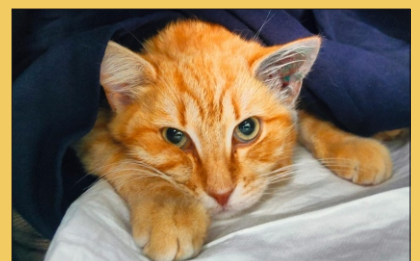

Left to right:
Severina, Giovanna and the vets
Carolin and Dorothea

Friday Februar 17th:
in the small veterinary
surgery of FMA in
Rocca D'Evandro

**2 vets + 2 volunteers
worked together to
spay/neuter
19 cats:**

13 female + 6 male

CAROLIN

DOROTHEA

SEVERINA

GIOVANNA

All cats were spayed/neutered, identified with a Microchip and registered in the regional database. Late Afternoon all of them were awake and in good state. We took them back to their owner. A room with heating has been already prepared, where all the cats, each per cage and covered with warm little blankets, could sleep until next morning. The cages were covered with sheets to keep them calm.

Thanks to many donors from all over the world the expenses for the surgeries were covered by our FOUNDATION: FONDAZIONE MONDO ANIMALE

THANK YOU
all volunteers and
sponsors
to make this day happen!

One day of „work“ - and it has been a very pleasant day for us to work together - makes sure that in the following year

at least 200 kittens

(only the first litters of the females we spayed) **will not be born.**

These animals were free to roam, with other words: 5 months later the female offspring would already be pregnant again.....

Cats in the south of Italy have 4 litters per year and I calculated only 3 kitten per litter (but there are sometimes 7 and even up to 9!). Tomcats I did NOT calculate at all, but each of them can mate with 300 female cats in one year!

AND: keep in mind:
AFTER EACH MATING A PREGNANCY WILL FOLLOW!

More than half of the female animals showed already signs of a heat cycle.....
